+6285640122346 | aldimusthofa02@gmail.com | www.linkedin.com/in/pradana-aldi-musthofa-564142212
Klaten, Jawa Tengah Indonesia

Fullstack Developer with 2+ years of experience specializing in C#, .NET 8 and Vue.js, with solid knowledge of ASP.NET MVC, Web API, and REST/OData APIs. Experienced in relational databases, particularly PostgreSQL, and understands the concepts of event-driven programming, including message brokers such as Kafka. Proficient in frontend technologies including JavaScript, TypeScript, Vue.js, and React. Experienced with CI/CD processes and continuously learning modern development practices.

Work Experiences

Uxbee – **Oosterhout, Netherland** Apr 2026 - Present

Remote Full Stack Developer

IT Sercive and IT Consulting

- Van Wijnen Group – Project Risk Monitor System

  • Worked in a small Agile Scrum team with full English communication, participating in daily stand-ups, sprint planning, backlog refinement, sprint reviews, and retrospectives.

  • Developed and maintained a Risk Calculation System using .NET 10 and Blazor.

  • Leveraged GitHub Copilot to improve development efficiency and accelerate feature delivery.

  • Consistently delivered sprint commitments ahead of schedule while maintaining high code quality through testing, code reviews, and adherence to development standards.

  • Utilized remaining sprint capacity to resolve technical debt, optimize system performance, and implement continuous improvements.

PT. Kode Gama Teknologi - **South Jakarta, Indonesia** Jul 2024 – Mar 2026

Full Stack Developer

Kodehive is an information technology company specializing in .NET-based software development for diverse industry sectors.

Worked on enterprise and government systems focusing on backend architecture, system modernization, and performance optimization

- Toyota Astra Motor – Learning Management System

  • Modernized legacy system to .NET 8 serving 50,000+ users with millions of records, improving performance from seconds to milliseconds

  • Executed large-scale data migration with full data integrity and zero disruption to business workflows

  • Optimized system performance using asynchronous job queues, caching, and search optimization to improve scalability and stability

  • Incrementally improved tightly coupled legacy code under constraints while maintaining system reliability

- Fastech – Attendance Management System

  • Designed and developed backend system from scratch replacing manual Excel processes, improving accuracy and reducing administrative overhead

  • Built scalable REST APIs for web and mobile with role-based access control, approval workflows, and location-based validation

  • Implemented business logic for attendance, shift management, and payroll-related calculations

  • Improved performance through caching and optimized data access patterns

- PUPR – System Rewrite (CMS)

  • Re-architected legacy PHP system into structured .NET application with improved maintainability and clear separation of concerns

  • Preserved existing business workflows while modernizing system architecture

  • Delivered project approximately 2x faster than estimated timeline by optimizing development approach and prioritizing high-impact areas

  • Simplified deployment by integrating frontend build into a single-service .NET application

  • Leveraged AI-assisted tools to accelerate development while maintaining control over design and code quality

PT. Javan Cipta Solusi - **Yogyakarta, Indonesia** Oct 2023 - Apr 2024

Full Stack Developer

Javan Cipta Solusi is an information technology company focused on developing software for various industry sectors.

- KPK – Correspondence Management System

  • Contributed to the development of a web-based system for managing official document workflows, including submission, approval processes, and document handling

  • Implemented responsive and user-friendly interfaces using React and TypeScript based on UI/UX designs

  • Developed features supporting correspondence workflows, including document submission and approval processes

  • Integrated OnlyOffice to enable in-app document viewing and editing, improving document accessibility and collaboration

  • Collaborated with backend services to ensure smooth data integration and consistent API consumption

  • Developed and consumed RESTful APIs to support frontend functionality

Education Level

Kodehive Academy Jun 2024 - Jul 2024

Bootcamp C# .NET MVC Backend Developer And Vue Js Bootcamp

Universitas Pembangunan Nasional Veteran Yogyakarta - **Yogyakarta, Indonesia** Aug 2019 - Apr 2024

Bachelor of Information System, 3.63/4.00

Dicoding Indonesia g - **Indonesia** Aug 2023 - Sep 2023

Certificate in Belajar Membuat Aplikasi Web Dengan React

Skills, Achievements & Other Experience

- **Framework**: React, Asp .Net, Vue
- **Soft Skills**: Logical & Analytical Thinking, Conceptual Understanding, Attention to Detail,Learning Agility, Collaborative Communication
- **Interest**: Backend Developer, Frontend Developer, DevOps, Infra
- **Programming Languanges:** C#, Javascript, Typescript
